This booklet contains information about the Skandia funds currently available through our products. The information is updated monthly.

Please note that past performance is not a guide to future performance. You should read Skandia's relevant product literature before considering any product or service. Please consult your financial adviser before making any investment decisions.

Skandia does not provide advice on selecting investments.

how to use indicator

The Indicator provides UK investors with a 12-month stock market outlook from a selection of fund groups linked to Skandia. We provided the fund groups with an index as a benchmark for each sector and asked them how they think the index will perform over the next 12 months.

These views are not fund specific. We have asked the fund groups to provide an outlook for each sector as a whole.

positive currency outlook

If the Indicator shows a positive view for the US\$, Euro or Yen, this represents a view of Sterling depreciating against that currency, which will have a positive impact on the returns from overseas investment.

Example: £1 = YEN 100

You, as an investor, buy Japanese shares costing YEN 100. After buying your shares, Sterling depreciates to £1 = YEN 90, this means you only need YEN 90 to buy back your original £1. You have YEN 100 which, divided by the exchange rate of £1/YEN 90, actually gives you £1.11.

If the fund group view for Japanese equities is positive and their outlook for the £/YEN is positive, then the overall outlook for the UK investor into Japan is positive. This is because the positive currency outlook increases the returns to the investor from the equity investment.

negative currency outlook

If the Indicator shows a negative view for the US\$, Euro or Yen, this represents a view of Sterling appreciating against that currency, which will have a negative impact on the returns from overseas investment.

Example: £1 = YEN 100

You, as an investor, buy Japanese shares costing YEN 100. After buying your shares, Sterling appreciates to £1 = YEN 110, this means you will need YEN 110 to buy back your original £1. You have YEN 100 which, divided by the exchange rate of £1/YEN 110, actually gives you £0.91.

If the fund group view for Japanese equities is positive but their outlook for the £/YEN is negative, then the UK investor would need to exercise a degree of caution when considering the Japanese market. This is because currency movements could adversely affect the positive equity returns.

indicator categories

The outlook provided by the fund group for equities ignores the effect that currency movements can have on the market. For example, if the fund group believes the US outlook is positive, but believes the strength of Sterling will be a deterrent for UK investors, they will still show a positive outlook for the US market.

The outlooks for equities, bonds and property relate to the specific indices shown in the 'benchmarks and market movements' table below the indicator grid. The performance information shown in this table is calculated in Sterling terms.

The currency outlook provides an outlook for Sterling-based investors.

outlook guidelines

▲ a positive outlook

the fund group believes the index they are using as a benchmark will rise in excess of 5% over the next 12 months.

□ a neutral outlook

the fund group believes the index they are using as a benchmark will have either a positive or negative movement of between 0% and 5%.

● a negative outlook

the fund group believes the index they are using as a benchmark will fall in excess of 5% over the next 12 months.

These are Investment House views and are not fund-specific.

the guaranteed pension fund

guaranteed pension fund bonus announcement as at 1 July 2010

	Monthly bonus rates
Bonus rate on contribution units	0.0000%
Bonus rate on bonus units	0.0000%
Additional bonus	0.0000%

Due to the continued uncertainty experienced by the fixed interest and equity markets, the Fund is currently experiencing what we consider to be abnormal or extreme conditions. Bonus rates since April 2008 have been reduced to take account of this. For June 2010, bonus rates have been set to zero.

Further information, including historical bonus rates, is available on the Skandia website. Investors should be aware that the value of the investment may fall as well as rise, although units in the Guaranteed Pension Fund have their value guaranteed at a pre-selected date. Bonuses are calculated after deducting an annual management charge of 1.1%. A discount may apply if units are redeemed prior to the Selected Guarantee Date.

fund statistics in our fund ranges

Quartile rank

Quartile rank is a rating of performance on a scale of 1 to 4, where 1 is best and 4 is worst. The entire performance range of a sector is divided into 4, with each quartile rank corresponding to 25% of the range.

Fund manager Annual Charge (AMC)

All fund managers make an AMC for investment management. These are typically between 1% and 1.75% a year.

Total Expense Ratio (TER)

The Total Expense Ratio (shown for Life and Pension funds) represents the true cost of running a fund. It includes the fund AMC (which is shown for Skandia MultiFUNDS Limited fund links) as well as the depository and custodial charges, and audit, registration and compliance fees.

OBSR Ratings

Ratings awarded are AAA, AA or A.

There are several key factors which lead to the final OBSR Rating determination. These are:

- Strength of investment process and length of time it has been in place.
- Continuity of investment personnel.
- Investment style that has proven durable over time.
- Clearly defined investment objectives.
- Strong and consistent past performance record.
- Favourable risk adjusted returns.

The OBSR Ratings are more focused towards qualitative appraisals.

Citywire Ratings

The Citywire Ratings provide a totally objective statistical gauge of a fund manager's risk adjusted performance.

Citywire considers all managers who run actively managed retail funds, assigning ratings to managers who achieve or exceed demanding performance thresholds based on their 36 month risk records. Of the hundreds of active fund managers only 20% receive a rating.

- AAA fund managers in the top 5%
- AA fund managers in the top 6%-13%
- A fund managers in the top 14%-20%

Sector averages

Sector averages denote the average performance of all funds within that particular sector. Sector classifications are governed by Financial Express.

A new sector will only display sector averages after three months of performance data has been collated.

how the funds work

Spectrum is an innovative range of risk-rated funds that bring greater precision to the management of your investment journey by matching the appropriate portfolio to an acceptable level of risk.

It works by using the pioneering Skandia Risk Profiler to determine an investor's appetite for risk by way of a risk 'score' between 1 and 10. This can be matched directly to the strictly risk-controlled Spectrum Fund that has the most suitable risk-return characteristics.

The Spectrum solution offers a range of six funds, designed to meet the requirements of investors with a Skandia risk level of 3 to 8. Historically more than 95% of investors fall within risk profiles 3-8, which is why the Spectrum Funds have been built to match these profiles. Each fund will have an asset allocation designed to maximise the expected returns for a given level of risk.

For more about this range of funds, please speak with your financial adviser.

Signature funds

the funds

Signature is a focused range of 20 funds, where managers are researched, selected and monitored by Skandia Investment Group's global Investment Research team, thereby enabling you to 'outsource' the fund selection process, while retaining control over asset allocation.

The Signature funds cover every major asset class, giving you the ability to precisely tailor the structure of the portfolio.

research, selecting and monitoring

manager research

Skandia Investment Group's size and reputation gives it access to the industry's leading investment professionals. Its 40+ strong team of research analysts and portfolio managers collectively dedicate more than 6,000 hours a year to researching, meeting and analysing managers across the globe, and maintain close, regular contact with over 200 fund management groups worldwide.

selecting the managers

Only the managers that meet or exceed the high expectations of Skandia Investment Group will be considered for inclusion in the Signature range. Many of the managers available in the funds are normally only accessible to institutional investors or the very wealthy, but are available to you as a result of Skandia's size and buying power. If you would like more information on the managers, please speak to your Skandia Business Consultant.

monitoring the managers

All of the managers are monitored on a continuous basis by Skandia Investment Group's portfolio managers. If managers change their style, consistently underperform, or a better manager is identified, they can be replaced rapidly.

the Skandia Investment Group 4P Process

Skandia Investment Group works to the premise that no single investment management company can ever be the best in all areas at all times. Instead of managing investments directly, SIG's research teams identify what they consider to be the best external fund managers and outsource the management of funds to them.

SIG carries out an ongoing evaluation and selection process by concentrating on four fundamental research cornerstones – called the '4P Process':

- 1 Philosophy**
Does the investment manager understand the causes of the market's inefficiencies and how to exploit them?
- 2 Process**
An investment manager's investment process must be disciplined and repeatable.
- 3 People**
A fund is only as good as the investment professionals behind it, and the stability and integrity of the investment management company.
- 4 Performance**
Managers' trading patterns and performance verify and evidence the success of their investment approach.

enhanced allocation bond funds

EAB funds are only available to investors in the Skandia Enhanced Allocation Bond. The fund range for this product is restricted to these funds only. The quartile ranks for the EAB Funds relate to each fund's relevant sector. The OBSR ratings relate to the underlying Unit Trust/OEIC; the Citywire ratings relate to the fund manager individual managing the underlying Unit Trust/OEIC.

¶ This fund invests in zero dividend preference shares.

♦ Fund less than one year old, no performance information can be shown for regulatory reasons.

¹ The fund manager may apply a Performance Related Fee and so the figure shown under the TER is only indicative of the charges which will be incurred. For more detailed information please refer to the relevant Fund Factsheet.

² Multi-Manager Fund.

Source for all performance information and Crown Ratings: Financial Express Limited, bid to bid, in Sterling, with net income reinvested back into the fund.

Investors should be aware that unit prices and the income from units may fall as well as rise and that past performance is not a guide to the future.

Where a fund invests in securities designated in a different currency to the fund, or where an underlying fund is denominated in a different currency, investments may rise and fall purely as a result of exchange rate fluctuations.

Please note the volatility of individual funds may be significantly higher or significantly lower than the volatility of the sectors into which the funds are classified.

Sector classifications are governed by Financial Express.

The TER figures quoted exclude any product charge which is reflected in the pricing of the fund.

Funds denoted by (SDB) are only available from the outset to investors in the Skandia Distribution Bond which must be 100% invested in this sector.

For more information regarding the statistics shown in our fund ranges please see the Fund News page.

This Financial Express sourced information is provided to you by Skandia UK Group and is used at your own risk. Financial Express take care to ensure that the information provided is correct. Neither Financial Express Limited or Skandia UK Group warrants, represents nor guarantees the contents of the information, nor do they accept any responsibility for error, inaccuracies, omissions or any inconsistencies herein.

Citywire Ratings: Source & Copyright: Citywire Financial Publishers Limited. The manager's Citywire Fund Manager rating is based on their 3 year risk adjusted performance. More information at www.citywire.co.uk

OBSR Ratings: Source and copyright Old Broad Street Research Limited.

Skandia Life Assurance Company Limited is registered in England & Wales under number 1363932. Registered Office at Skandia House, Portland Terrace, Southampton SO14 7EJ, United Kingdom.

Authorised and regulated by the Financial Services Authority with FSA register number 110462. VAT number 386 1301 59.

The performance figures for Skandia Life include all external fund management fees the life company's Annual Management Charge, but do not include any other product charges. All Skandia products are subject to their own charges as well as those reflected in the unit prices. Fund performance figures shown are not therefore an indication of the performance of any particular product.

For ISA the performance does not allow for tax reclaims that have been available at various times in the past.

For Skandia Life funds invested in unit trusts or OEICs, the performance of the Skandia fund will not mirror the performance of the underlying fund because of product charges, taxation adjustments (where appropriate) and the life company investment process.

Where a fund invests in securities designated in a different currency to the fund, or where an underlying fund is denominated in a different currency, investments may rise and fall purely as a result of exchange rate fluctuations.

Special risks apply to emerging market funds in addition to the normal risks of investing in securities. Their prices may fluctuate considerably, and local dealing restrictions may make some securities illiquid. Investment in these funds should be regarded as long term in nature and is only suitable for investors who understand the risks involved.

The inclusion of any particular fund in our fund ranges does not imply that it is suitable for a particular investor. Skandia does not provide advice on selecting investments - investors should consult their financial adviser on the merits of any particular investment.

The Financial Express sourced information is provided to you by Skandia UK Group and is used at your own risk. Financial Express take care to ensure that the information provided is correct. Neither Financial Express Limited or Skandia UK Group warrants, represents nor guarantees the contents of the information, nor do they accept any responsibility for error, inaccuracies, omissions or any inconsistencies herein.

Units prices may fall as well as rise.

You should note that past performance is not a guide to future performance.

Please contact us at ourfundranges@skandia.co.uk if you would like us to e-mail you when our fund ranges is updated on our internet site, or for any distribution enquiries.
